CSI SPECIFICATION LIBRARY EXPANDS

Highland Tank is proud to offer CSI specifications for many of our products. CSI format specs provide in-depth details on our tanks and follow the CSI MasterFormat. The specs reference everything from standards and construction to coatings and accessories, and more.

We have expanded our CSI specification library to include Overfill Protection FIREGUARD® Tanks as well as Highguard Underground Tanks for boiler/generator applications.

These new specs join libraries already in place for Oil/Water Separators, FIREGUARD® tanks for motor fuel and generator systems, Fire Protection Tanks, Potable Water Storage Tanks, and Wastewater Storage Tanks.

To access our full library of CSI specs, you'll simply need to join the My Highland Tank portal: <https://www.highlandtank.com/my-highland-tank/>
The CSI specs can be found under the specs and files tab.

Master Spec Format - CSI Specifications

Highland Tank is pleased to offer CSI specifications for download.
